

Advanced Imaging and Education Centre UNIVERSITY OF TORONTO

Breast Tomosynthesis One-Day Workshop

Friday, September 11, 2015 & Saturday, September 12, 2015

Intended Audience: Radiologists, and Medical Imaging Residents and Fellows

Program Description:

This 8 hour workshop will focus on Digital Breast Tomosynthesis (DBT) and its use in a clinical setting. The topics will include hands on assessment of DBT cases including screening and diagnostic setting and will involve hands on faculty led review of data sets on dedicated tomosynthesis work stations with an emphasis on audience participation.

Goals:

Radiologists, Technologists, Residents and Fellows working in the field of breast imaging will be introduced to this advanced imaging technique which will enhance their skills for integration of this technique within their practice by attending this workshop.

Course Objectives:

At the end of the workshop the participants will be able to:

1. Describe how the breast tomosynthesis images are acquired and be able to compare tomosynthesis images with conventional digital images.
2. Assess breast tomosynthesis images systematically.
3. Differentiate benign and malignant lesions based on breast tomosynthesis images.
4. Interpret digital breast tomosynthesis images in the accurate detection of breast disease; including breast carcinoma.
5. Analyze 'C view' synthetic images on the workstation.
6. Evaluate up to 75 clinical cases in real time on a dedicated breast tomosynthesis work station followed by faculty review.

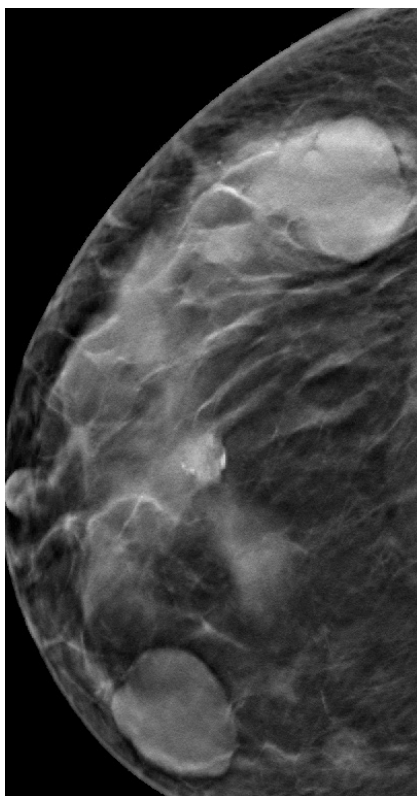

Course Director and Instructor:

Dr. Supriya Kulkarni, MD

Assistant Professor, University of Toronto.

Director of Breast Imaging Education and Fellowships,
Staff Radiologist, Joint Department of Medical Imaging,
University Health Network, Mount Sinai Hospital
and Women's College Hospital

supriya.kulkarni@uhn.ca

Instructors:

Dr. Rachel Fleming, MD

Lecturer, University of Toronto

Staff Radiologist, Breast Imaging, Department of Medical Imaging

University Health Network, Mount Sinai Hospital, Women's College Hospital

Dr. Sandeep Ghai, MD

Assistant Professor, University of Toronto

Staff Radiologist, Breast Imaging

Department of Medical Imaging

University Health Network, Mount Sinai Hospital, Women's College Hospital

Course Agenda

7:00 - 7:30	Registration and Continental Breakfast
7:30 - 8:00	Introduction to Tomosynthesis with Q & A – Dr. Kulkarni
8:00 - 8:15	Introduction to the Keypad – Melissa Reeve
8:15 - 9:15	Didactic Training Set with Faculty – Dr. Kulkarni
9:15 - 9:30	<i>Break</i>
9:30 - 10:00	Integrating DBT into Clinical Practice with Q & A – Dr. Ghai
10:00 - 11:15	Case Reviews Set 1
11:15 - 12:00	Faculty Led Review & Discussion of Set 1 – Dr. Ghai
12:00 - 12:30	Current evidence for screening with DBT with Q & A – Dr. Fleming
12:30 - 1:30	<i>Lunch</i>
1:30 - 2:00	Case Reviews Set 2
2:15 - 2:45	Faculty Led Review & Discussion of Set 2 – Dr. Fleming
2:45 - 3:00	<i>Break</i>
3:00 - 3:45	Case Reviews Set 3
3:45 - 4:30	Faculty Led Review & Discussion of Set 3 – Dr. Kulkarni
4:30 - 5:00	Summary Wrap up and Q & A

Course Fees

Includes course and all materials and continental breakfast; does not include travel, accommodation or lunch.

Full Tuition: \$600

Radiologist with OAR/CAR Membership: \$450

UofT Faculty - Radiologist: \$250

UofT Residents & Fellows of Medical Imaging: \$250

Residents & Fellows of Medical Imaging (with Proof): \$250
