

2024–2025

Advanced Course in Grant Writing

Workshop Dates

- ▶ Session I: Sept. 19-20, 2024 (In-person)
- ▶ Session II: Nov. 7-8, 2024 (Virtual)
- ▶ Session III: Jan. 30-31, 2025 (Virtual)
- ▶ Session IV: April 24-25, 2025 (In-person)

Learning Objectives

Upon completing the Advanced Course in Grant Writing, participants will be able to:

- ▶ Articulate the elements of an effective grant proposal
- ▶ Produce a quality study design, supported by a well-justified budget and a realistic timeline
- ▶ Write a grant proposal for the intended audience in compliance with grant instructions and demonstrate the mechanics and logic of effective expository writing
- ▶ Describe the components and psychology of the grant review process

Overview

In this intensive, four-part course, you'll get hands-on experience in preparing a grant application for the National Institutes of Health (NIH), National Science Foundation (NSF) or other funding institution. This course provides insight into the entire grant preparation process and includes a personalized review of your proposal. You'll leave equipped with a polished grant proposal as a principal investigator.

Application Deadline:

July 15, 2024

Limited spaces available

For instructions and the application form, go to [RSNA.org/AGW](https://rsna.org/AGW).

If you have questions, please contact RSNA Staff at dor@rsna.org.

Applicant Criteria

The course is open to all subspecialties in radiology, radiation oncology and nuclear medicine. Successful applicants must:

- ▶ Agree to attend all four sessions.
- ▶ Have no previous funding as a principal investigator on an NIH- or NSF-funded project.
- ▶ Hold an MD or PhD and be a faculty member.
- ▶ Have the support of the department chair, including release time to attend the course sessions and time to complete assignments.
- ▶ Have a viable research idea that matches current research priorities.
- ▶ Have a mentor who is willing to provide written input on the proposal-in-progress.
- ▶ Be prepared to discuss and develop the research idea over the course of the four sessions with the aim to submit a proposal to NIH, NSF or other equivalent institution by the October 2025 deadline.
- ▶ Be an RSNA member at the time of the program, if accepted.

Note: Participants are responsible for air travel and ground transportation to the course site. RSNA will provide hotel accommodations (two nights) and meals during the first and fourth session.

The Society of Interventional Radiology Foundation (SIRF) will provide up to four travel awards for selected interventional radiology participants (sponsored applicants must be SIR members).

Accreditation Statement: The Radiological Society of North America (RSNA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
