

CONTINUING PROFESSIONAL DEVELOPMENT

Mentorship Webinar

This 1 hour session will describe the challenges and benefits of mentorship in a busy professional career, including it's role in promotion at University of Toronto. We will discuss mentorship, sponsorship, coaching and developing mentorship networks. We will give case examples to illustrate these topics. We will follow with a brief discussion of upcoming mentorship software which will be made available to mentors/mentees likely by April 2022. We then have an opportunity for open Q&A with the audience participants.

Audience: All interested faculty, residents, fellows and affiliate health professionals.
