

Rotation Card

Orthopedic Surgery

Transition to Discipline (TTD) constitutes your PGY1 (13 blocks).
Residents should aim to log a minimum of 2 EPAs per week.

The following are the EPA's you should focus on when on Orthopedic Surgery:

- TTD-3 (7 required in TTD, minimum 1 on this rotation)
- TTD-4 (5 required in TTD)
- TTD-5 (7 required in TTD)
- TTD-6 (3 required in TTD)

How to Complete an EPA:

1. Login to Elentra, initiate the EPA and provide the assessment demographics. This can be done on your mobile phone or computer.
2. Complete the assessment scale for each dimension.
3. Using the global entrustment scale below, decide whether the resident can be entrusted (Competent and Proficient) overall to perform this activity with a similar case in the future. In general, residents are not expected to be entrustable early in a new stage of training.
4. Discuss feedback and attain coaching tips.

Intervention	Direction	Support	Competent	Proficient
--------------	-----------	---------	-----------	------------
