
Vascular and Interventional Radiologist, Trillium Health Partners

Trillium Health Partners (THP) is the largest community based academic health network in Ontario serving over one million residents in the communities of Mississauga, Peel Region, and West Toronto. The hospital encompasses three main sites – Credit Valley Hospital (CVH), Mississauga Hospital (MH), and Queensway Health Centre (QHC) – offering a full range of acute care hospital services with highly specialized regional programs such as stroke, vascular surgery, hepatobiliary surgery, neurosurgery, cardiovascular surgery/intervention, chronic kidney disease (CKD), and a regional cancer program. The department has recently benefitted from a comprehensive renewal of its diagnostic and procedural equipment as well as installation of an industry-leading PACS system. Trillium Health Partners will soon be breaking ground on construction for the Peter Gilgan Mississauga Hospital, which will be Canada's largest hospital.

Trillium Health Partners is offering an exciting opportunity to join our team. The Diagnostic Imaging Program is seeking a **Staff Vascular and Interventional Radiologist** with a broad skillset in Vascular and Interventional Radiology, having completed a recognized VIR fellowship. The VIR practice at THP includes Interventional Oncology work, specifically ablation procedures for renal, liver and lung, TACE and Y90. Vascular interventional competencies include arterial and venous angiography/angioplasty/stenting, embolization, thrombolysis/thrombectomy, peripheral vascular disease, aortic intervention as well as elective UFE and gonadal vein treatment. Participation in the dedicated IR consult clinic will also be required. Candidates are also required to have competency in various modalities of Diagnostic Radiology including CT, MRI, ultrasound and X-Ray/fluoroscopy. Breast imaging and Nuclear medicine competencies are not required. Successful candidates will be providing interventional and diagnostic imaging services to all three sites of Trillium Health Partners. Participation in on-call coverage will also be required. Start date is flexible but ideally July 1, 2025.

The preferred candidate will serve as a role model in their area of clinical expertise, promoting synergies and the application of best practice in both patient care and clinical operations. It is expected that he/she will possess excellence in communication and collaboration. Excellent interpersonal skills and a commitment to an inter-professional care model are also essential.

The organization is an affiliated academic teaching center with the University of Toronto, and the preferred candidate would be expected to participate in teaching of undergraduate and postgraduate medical learners.

This position represents an opportunity to join a group of dedicated healthcare professionals in a progressive organization. The successful candidate will be licensed or eligible for a license to practice medicine in Ontario with accreditation in Diagnostic Imaging from the Royal College of Physicians and Surgeons of Canada or its equivalent, as well as a minimum of a 1 year of fellowship training in Vascular and Interventional Radiology beyond residency. He/she will be eligible for a faculty position at the University of Toronto, Faculty of Medicine. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Interested candidates are requested to reply with a covering letter, curriculum vitae and the names of 3 references, no later than **7 November 2024**. Only candidates invited to interview will be contacted.

Please submit requested documents to:

Dr. Ivan Diamond
Program Chief and Medical Director, Diagnostic Imaging Program
