

TTD-2 Using the dictation system

Transition to Discipline (TTD) constitutes your PGY1 (13 blocks).
Residents should aim to log a minimum of 2 EPAs per week.

Criteria:

1. Residents are responsible for completing a minimum of 1 (-one) TTD2 EPA's.
2. Residents should aim to complete 1 entrustable TTD1 over the course of the two rotations listed below.
3. To be completed by staff radiologist, other faculty member, fellow, or senior resident.

Dimensions:

1. This EPA focuses on using a dictation system to record a simple or normal report.
2. At this stage, the resident is not expected to interpret an image; this EPA is limited to documenting the report as reviewed with a supervisor.

Rotations to Complete this EPA include:

- Introduction to Diagnostic Radiology: Chest Imaging
- Introduction to Diagnostic Radiology: Computed Tomography

How to Complete an EPA:

1. Login to Elentra, initiate the EPA and provide the assessment demographics. This can be done on your mobile phone or computer.
2. Complete the assessment scale for each dimension.
3. Using the global entrustment scale below, decide whether the resident can be entrusted (Competent and Proficient) overall to perform this activity with a similar case in the future. In general, residents are not expected to be entrustable early in a new stage of training.
4. Discuss feedback and attain coaching tips.

Intervention	Direction	Support	Competent	Proficient
--------------	-----------	---------	-----------	------------
